

## Abstract

Violet colorant for color filters, inks for ink-jet, electrophotographic toners and developers and e-inks

5

The invention relates to the use of a pigment preparation comprising

a) a dioxazine compound of the formula (I) as base pigment

10

and

b) a dioxazine compound of the formula (II) as pigment dispersant

in which

15 Q is an m-valent radical of the base pigment of the formula (I),

Y is a bridging moiety,

X is in particular a heterocycle, and

m indicates a numerical value between 1 and 4

as a colorant in color filters, ink-jet inks, electrophotographic toners and

20 developers, and electronic inks.
